## SITUATION SUMMARY

### Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

#### Cal OES INLAND REGION

- Nothing significant to report.

#### Cal OES COASTAL REGION

- Nothing significant to report.

#### Cal OES SOUTHERN REGION

- Nothing significant to report.

# **COVID-19 SUMMARY**

## **Coronavirus Disease 2019 (COVID-19)**

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

## **SMARTER Plan**

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

## **CDPH Statewide Travel Advisory**

- For more information: [CDC Travel Guidelines](#)

## **Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 05/18/22 at 1630 hours:**

- 8,757,871 total confirmed cases.
  - 70,245 Delta
- 90,219 total deaths.
  - 262 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

# Weather Key Points

Regional Operations Center

Western Region

Friday, May 20

- Elevated to locally Critical fire weather conditions will be in place across much of the Sacramento Valley and nearby foothills through Friday afternoon due to the combination of strong winds and low humidity
  - North to northwest winds gusting 45 to 55 mph are expected across the Sacramento Valley, strongest through late morning
  - Any new fires could spread quickly with these conditions
- Additional breezy conditions are expected across the state at times through the weekend and much of next week, bringing periods of locally elevated fire weather conditions, particularly to Inland and Southern Regions
- Slightly cooler temperatures will return Friday, with very warm conditions otherwise prevailing for most inland areas through the weekend and into all of next week
  - Daytime temperatures will warm through the 90°Fs and even approach 100°F over the Central Valley, warmest Tuesday through Thursday. Southern desert areas will reach 105°F to 110°F, especially next week
  - Minor to moderate heat risk impacts are likely for many areas through next week
- No precipitation is forecast over the next 7 days

# Precipitation Forecast

Regional Operations Center

Western Region

Friday, May 20

**No precipitation is expected through Sunday**

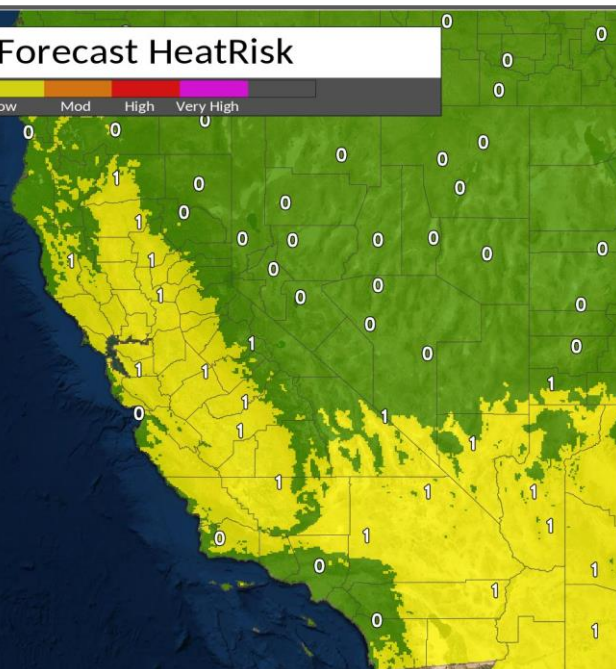

**Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

**Precipitation (inches)**

Friday's Forecast HeatRisk

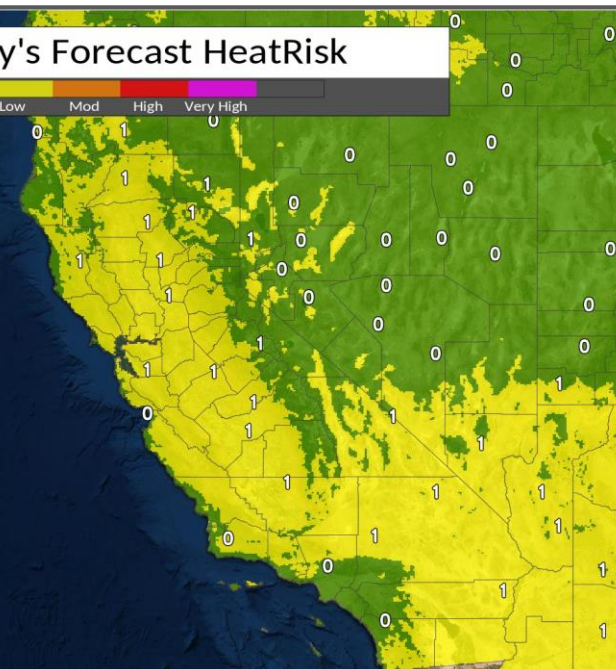

None Low Mod High Very High

GSL  
Global Systems Laboratory

Saturday's Forecast HeatRisk

None Low Mod High Very High

GSL  
Global Systems Laboratory

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

# Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Friday, May 20

## 6-10 Day Outlook (May 25 - May 29)

### **Temperatures**

- Above normal temperatures are favored to continue statewide

### **Precipitation**

- Below normal precipitation is favored across central California, with near normal precipitation favored for the remainder of the state

## 8-14 Day Outlook (May 27 – June 2)

### **Temperatures**

- Below normal temperatures are favored across far northern California, with near normal temperatures favored over central and southern portions of the state

### **Precipitation**

- Near normal precipitation is favored statewide

# WEATHER MAP
